SM

“ Tinker bell, known as Tinky, was born on September 24, 2004. She was the smartest puppy and learned many tricks. Her G-Daddy taught her so many tricks. The most favorite one was “bang”. When you would point your finger at her and say bang, she would fall on her back and play dead. She would speak, roll over, shake, give high fives, pose for pictures. She brought so much love and laughter to everyone she met. She would get to go to school with me and the kids at school loved it when she came. You could ask Tinky if she wanted to go to school and she would start running in circles and go to the door. I will always love and miss my sweet girl. She brought so much joy to my life.
