

## Tripod Bearden

March 20, 2023

"Tripod is survived by his mommy and daddy, Regina and Terry Bearden and his fur sisters Cricket and Margo. He was loved and enjoyed by all that met him. Everyone said he was beautiful, which he was. He loved to be held and petted. If you weren't petting him he would nudge your hand demanding to be loved on. He loved playing with his sisters (dogs) and when he had enough he would hide under the coffee table.

Tripod got his name because of losing a hind foot when he was a new born. The nesting fur got tangled around his ankle cutting off the circulation causing the foot to need to be amputated. He was resilient and never realized he was handicapped. He ran and hopped like any other bunny.

Tripod was 8 years old, 90 years in bunny age and will be missed terribly. RIP Tripod." - Regina Bearden
