MT

“ *Winston started his journey in this life on January 13, 2002. We rescued and adopted him in March of 2007. However, we were the ones that were rescued. Winston brought so much joy and happiness into our lives. A hole will be forever in our hearts reserved only for this special little man. We know he is healthy and restored...playing, exploring and running through the grassy fields once again since crossing over "Rainbow Bridge". He has joined his brother and sisters that have gone on ahead of him. We will be reunited once again my precious little man.... You will be forever missed and loved*❤️
